

Connecticut Children's
Center for Care Coordination

Providing thorough, supportive and innovative
resources for families to improve the health
and wellbeing of children and youth.

HOW WE CAN HELP

Finding health care and community services for your child can be an overwhelming challenge for parents. Our care coordinators ease that burden by developing a care plan for your child and making sure doctors, nurses, behavioral health providers, families, schools, and community service providers are all familiar with the plan. Our care coordinators can also educate you about additional resources and guide you in connecting with them. Our care coordinators will continue to assist you through the years as your child grows. We're here to help!

OUR MISSION

The Connecticut Children's Center for Care Coordination is dedicated to building partnerships to enhance the lives of children and youth. Through a team approach, we provide family-centered care coordination and advocacy. We embrace diversity, integrity and excellence in all we do.

Here's how a care coordinator can partner with you:

- Assess the needs of your child.
- Connect you to medical, behavioral, educational, legal, advocacy, and social services.
- Help you communicate effectively with your child's providers.
- Develop care plans for children with identified needs.
- Assist you with medical, educational, vocational and community transition planning.

Our care coordination services are free to all children and youth, from birth to age 21, including those with medical, developmental or behavioral conditions and those needing help with basic needs.

How to get started:

1. Call the Connecticut Children's Center for Care Coordination at 1.877.835.5768.
2. A staff member will ask questions about your child's needs.
3. You will receive a welcome packet in the mail.
4. A care coordinator will be assigned to your family once paperwork is complete.
5. Your care coordinator will contact you to assess your needs and develop a care plan.
6. The care coordinator will work in partnership with your child's primary care provider.
