SAFE PROGRAM**

www.connecticutchildrens.org/ipc

Kohl's TweenSafe Program is a project of the Injury Prevention Center at Connecticut Children's Medical Center. Kohl's Department Stores and Connecticut Children's have partnered to promote safety specifically for children ages 8-12 throughout Connecticut. As part of this effort, Super Safe Comics brings you another adventure of Captain Super Safe designed to teach children about crossing the street safely.

This book is designed to be read by parents to their children or by children who are already advanced readers. Parents should emphasize the importance of crossing the street safely using this book: making sure that kids look left, right, left and listen before crossing the street; cross only with an adult if they are under the age of 10; and, pointing out that just because they can see a car it does not mean that a driver can see them.

THE AUTHOR

Kevin Borrup wrote this comic series to help educate children and parents on childhood safety issues while still having fun. He has worked at the Injury Prevention Center since 2004, helping to keep kids safe and injury free!

THE ILLUSTRATOR

Scott DaRos is an illustrator and animator who is best known in Connecticut for his work on the Bob's Discount Furniture ads that use claymation. For further information on the illustrator go to: www.scottdaros.com

Hello Captain Super Safe, it's me Angel. We met when you were giving away bike helmets the other day.

YES, I REMEMBER YOU, ANGEL. HOW CAN I HELP YOU?

Well, tomorrow morning I have to teach my class about safety signs at 8:30am sharp, but I'm not sure what to say. Please come, you always know what to say about safety!

YOU CAN COUNT ON ME. SEE YOU AT 8:30AM!

Don't forget!

THE NEXT MORNING CAPTAIN SUPER SAFE IS STILL ASLEEP...

ANGEL ... WHOOSH...
DID I MAKE IT
IN TIME?

Neat!

WOW! It's
Captain Super Safe!

Wow!

As Captain Super Safe catches his breath,
I have a question. Who knows what
a pedestrian is?

It's someone who
is walking.

Right. And now I'll show
you some of the signs that
a pedestrian needs to know
to be safe.

This is a stop sign.

Cars should stop at the sign.

This is a railroad sign.

Cars and pedestrians should proceed with caution at a train crossing.

This is a walk sign.

Pedestrians may now cross, but look to make sure the cars have stopped first.

This is a don't walk sign.

Pedestrians should not cross when they see this symbol.

Thank you Angel, that was very good. What did you think, Captain Super Safe?

ANGEL, THAT WAS GREAT, I COULD NOT HAVE SAID IT BETTER MYSELF!

Thank you for coming, I felt better knowing that you were here.

YOU'RE WELCOME. HERE, YOU DESERVE THIS STICKER BECAUSE TODAY YOU SHOWED THAT YOU CAN BE SUPER SAFE, TOO!

THE END

CROSSING THE STREET**

"WALK to SCHOOL" Safety Maze

Trace your way from Home to School. Remember, you can only cross a street at a corner with a crosswalk! Be sure that the walk sign on the OPPOSITE side shows a Walk signal. You cannot cross if you get the Don't Walk signal.

How to safely cross the street

Make sure that you cross at a corner and use a crosswalk whenever possible. Children under the age of 10 should not cross the street without an adult. Be safe when crossing the street by following these simple steps:

- **STOP** at the edge of the curb;
- **LOOK** left, right, left, and **LISTEN**;
- Make **EYE CONTACT** and wave to drivers before stepping into the road to make sure you are seen;
- **WALK**, do not run across the street;
- **CONTINUE** to look and listen for cars as you cross.
